# **Bioidentical Hormones Seminar**

**Tuesday 2/09/10 at 6:00 PM**

**HORMONE IMBALANCE? Don't know? Hormones regulate key functions of the body from brain activity to cell metabolism to reproduction. Fluctuation can affect mood, sexual desire, fertility, ovulation and more.**

**What are BIOIDENTICAL HORMONES (as seen on Oprah) and how can they help? Who can benefit from their use? What are risk factors of breast cancer, osteoporosis, and heart disease?**

**This is an educational seminar for anyone who is interested in learning more about hormone imbalance, bioidentical hormones, alternative answers for why their hormones are out of control, and how foods, supplements, and/or herbs help with re-balancing the body.**

***COMPLIMENTARY SEMINAR***

***Reservations Required***

**815-397-8500**

**5301 E. State Street, Suite 101, Rockford, IL**
